On humanitarian aid for Ukrainian
citizens

Dear partners!

State Migration Service of Ukraine (hereinafter – SMS) presents its compliments to you and asks for urgent assistance – at a time that, without exaggeration, is crucial to the fate of our country.

On February 24, 2022, the treacherous attack of the Russian Federation on Ukraine, one of the founding members of the United Nations, marked the beginning of the war in one of the largest countries of Europe, which nurtured and strengthened peace for more than 75 years.

The aggressor country not only violated the established international rules of peaceful coexistence, but also cynically disregarded all moral principles. The army and mercenaries of the Russian Federation came to Ukraine to destroy and kill, including civilians.

Thousands of Ukrainian cities, villages and civilians are currently suffering from rocket and artillery shelling, air and ground strikes. Territorial departments and units of the SMS and their employees also suffered significant losses. The vast majority of administrative buildings, where active hostilities are taking place, have been destroyed.

The direct military aggression of the Russian Federation extends to the entire territory of Ukraine and poses a real threat to human life. This fact has already been recognized by the entire progressive world community. And we, for our part, are forced to state the pain and hardship of Ukrainian citizens. We are talking about millions of people, the vast majority of whom are women, children and the elderly.

Our gratitude to our Western friends is boundless. Ukrainians show their courage and love for freedom to the whole world every day. **Our goal is to support our citizens and to support our heroes and develop the infrastructure of our state in order to support all our statehood.**
